Newport News friends of Congressman W. A. Jones place no credence in the report emanating from Norfolk that Mr. Jones will enter the senator ial primary next year against Senator Martin. While Mr. Jones has many friends who would be glad to vote for him for the Senate it is improbable that he has authorized in any way such publication and it is most improbable that he will seek the office.

THE BALLINGER AFFAIR. Six republican members of the Bal-

nger investigating committee met in Chicago yesterday and issued a state ment condemning the action of the four democratic members and the one republican insurgent member who delivered a report at Minneapolis last Wednesday demanding the retirement from office of Secretary Ballinger.

Those present yesterday were Senators Sutherland, Root and Nelson and Congressmen McCall, Olmsted and Denby. They declared the action of what they term the "minority" at Minneapolis to have been "according to the worst methods of ward politics. The evidence in the Ballinger case was discussed, but in the absence of a

As the minority declined to attend yesterday's conference, and took their adjournment at Minneapolis until the next meeting of Congress, it is probable that Senator Nelson will not call another meeting until the return of Senator Flint, who, as the seventh member, would make a quorum.
